LEADING TECH

Finish Pressing

Self-owned pressing line for quick, controllable and cost-saving material supply, daily pressing sheet over 20000 pcs

Auto-Cutting

Fully automatic crane rail andunmanned cutting machine, ensure the manufacturing efficiency

Laser Banding

Eco-friendlly Laser banding tech can avoid the glue spilling and make the whole process more stable

Rolling Edge Banding

Robot rolling for 3 times to ensure the boards get one-time lippng without slow shift

Precise Drill

Fast and accurate drilling process, everything under PC controlled modular to get rid of mistakes

Shape Carving

Thousands of carving programming with CNC Tech thatallows a better performance

Massive Volume

For modular unit sizes, factory provides advanced manufacturing to ensure the capacity balance

Auto Sorting

Unmanned sorting system to save time, save labor cost and realize a more reasonable cargo cache

Auto Selecting System

Cargo cache and robot-hand selecting for package

Stereoscopic Warehouse

Auto lifter system and multilayer cargo storage area, saving warehouse space

Cargo Delivery Platform

Unmanned storage system and deliver with rolling platform

NJ Intelligen

Assist the design, development and implementation of Industry 4.0 intell-igent manufacturing technology.

IDC

IDC-Responsible for digital structure design, IT research and development, ERP processing, organization process optimization, etc.

Smart MJ

Assist the design, RD of 3D VR (DIYHome Design Software), so as to achieve consumer independent design, professional design of terminal showrooms, automatic integration of 3D drawing data offactory orders.

CERTIFICATION

LEADING DESIGN

Caesar Series

Future Star City is a brand-new luxury-themed smart home design solution created by our company. Inspired by space and planets, the designers have used electroplating effects with strong textures and contrasting light and dark tones as the main color scheme. Orange accents are added, along with elements such as lighting, metal, and glass. The combination of these elements, along with minimalist design techniques, creates a mysterious and futuristic home ambiance.

Innovative research and development have led to the creation of liquid metal technology for the paint-coated panels, ensuring a three-dimensional technological texture resembling the surface of a planet. The entire home space integrates smart modules and storage modules, offering users a luxurious and futuristic home ambience.

Baby & Children Bed

The Growing BED project is a furniture design project based on babies' behavior. The goal is to design a collection of furniture for children's lifestyles.
The Growing BED can be adjusted to sleep, accompany or play mode, and can be transformed into a sofa bed mode as children grow up. Equipped with intelligent disinfection and warming function, it protects the baby against bacterial and enhance dressing experience. The first-class environmentally friendly wood with anti-dumping function protects the baby in every dimensions. Amultifunctional bed that can grow with babies.

Nini Series

The designer draws inspiration from the classic Hollywood film "Roman Holiday," incorporating elements such as the silk texture of Princess Ann's dress and the curved lines of Roman arches. The space is based on a creamy white tone, complemented by materials like metal, leather patterns, and silk.

The design incorporates elements such as butterflies and brand logos, combining multiple curved shapes with lighting to create an elegant and dynamic atmosphere. The diverse custom cabinets and storage accessories provide ample storage and display space, creating a safe, soft, and beautiful French-style environment for users.

Suofeiya cooperate with international famous design institutions, absorb global cutting-edge design wisdom, more international vision and design concept.

Combined with big data and a large number of practical cases, to better understand the design and quality of Living in China, to provide a better life solutions for tens of millions of families.

ADVANTAGE

How ENF Grade Comes

In China, Suofeiyo is the first company to launch the Formaldehyde-free products as enterprise stragegy. Millions of family eager lo search for safe and secured furniture and that's why Suofeiya keeps strict monilering on each phase.

Moreover, being the leader of industry. Suofeiye helps to set the national standards regarding ENF Grade boards in 2021. As the role model, Suofeiya will implement persistenily to guarantee all safe and health into every family.

Raw wood material been carefully selected

Compress by using Formaldehyde-free MDI glue

Abundant cool down time for each panel to ensure the performance

CNAS approved LAB to testevery batch of material

Industry 4.0 manufac-turing, super 5S clean factory management

Strict QC procedure (Random double internal inspection)

QR Code on every wood sheet to make records for tracing

Professional Delivery and 5-year warranty

Support for HD rendering, within the rendering function, multi-parameters adjustment availble to ensure the quality and variety of the image. Additionally, the rendering can be saved and export to PC and mobile phones by a single QR code. Just scan it and you will check the VR with renderings.

KITCHEN CABINET

Showcasing an exquisite life where tranquility and beauty intertwine perfectly.

Cherishing every detail and respecting quality, we offer a unique and dreamlike journey. Leading you into the realm of luxury and practicality, portraying your taste and unique personality.

Fayven Master

Italian Minimalism Style

Exclusive High-End Lifestyle Aesthetics draws inspiration from the essence of Italian design, marrying premium textures with modernist principles through an integrated design that harmonizes refined woodgrain finishes and handle-embedded door profiles, embodying distinctive aesthetics and elevated taste.

Blending the organic warmth of wood with the contemporary edge of stone, contrasted with metallic accents and muted backdrops, it crafts a layered ambiance of understated sophistication, layered depth, and elevated luxury.

The main door is stable and simple, with Roman columns that are three-dimensional and elegant. The double-sided slanted aluminum frame glass door is transparent and lightweight, and the inner rounded edge is soft and delicate. The curved layer board is practical and aesthetically pleasing, creating a high-end atmosphere.

Caesar

Light luxury style

Inspired by Julius Caesar of the Roman Empire.
Metal paint texture with scepter shape handle.
Unique styling integrated smart home design.
Fashion and comfort function together.
Showcasing the high quality lifestyle of the urban elite.

The design features an open island counter and an extended dining table, creating an open and free space with a fluid layout.

During meal preparation and cooking, it allows for communication and enjoyment, satisfying the social need for dining interaction. Multifunctional areas such as a wine corner, coffee area, baking zone, and gourmet section are integrated into the social kitchen.

Not only does it showcase the owner's taste, but it also helps cultivate closer relationships among friends.

Tuur Series

Light Luxury French Style

Romantic, stylish and elegant

Inspired by the French garden of Tours. The scenery is as beautiful as a painting. The Tours series kitchen cabinets draw artistic inspiration from the local area, creating a comfortable and romantic kitchen, interpreting a gentle and elegant artistic space.

With pearl white as the main tone, matched with Sparkling Azure, using a distinctive pull handle door design paired with exquisite lacquered grille doors and fashionable artistic glass textures, highlighting the beauty of lines, enhancing the aesthetic appeal of the home, and incorporating storage functionality, outlining a modern cabinet space.

U-shaped layout, clear workflow, starting from the food preparation and storage area, providing countertop space for placing small appliances and tableware, and storage for red wine and wine glasses racks, etc.

The door shape highlights the beauty of the line, and the handle is integrated into the logo of Suofeiya. Cylindrical metal legs exhibit an exquisite appearance.

Arc-shaped corner cabinet design softens the appearance of the cabinets, creating a warm and cozy atmosphere.

Nini European

French Cream Style Social Kitchen Cabinet. Inspired by the elegance and fashionable charm of Paris. Drawing on Luxury Light Retro Patterns. Soft and beautiful arc shape outlines a romantic atmosphere. Interpreting the elegant and exquisite French luxury space.

Baking paint bevelled cut sliding door cabinet. Dynamic design, combining aesthetics and functionality. North Star translucent back board, making ornaments more advanced. French-style arc kitchen island platform. A work of art and also a storage cabinet.

Under the highlighting of light and shadow, the retro wave-patterned door emphasizes its texture even more.

The R400 curved door is processed with rounded corners, which adds a smooth and detailed touch while contrasting with the modern minimalist linear style, introducing a hint of French softness and delicacy.

Miller

Modern Natural Style

Inspired by Miller's oil painting master works, with the respect for nature, this design seamlessly combines natural wood veneer with modern technology, expressing the serene charm of natural art in silence.

The pure wood color palette creates an atmosphere of calm grandeur, complemented by lightly painted cabinet doors, with minimal intricate decorations, to create an elegant private kitchen space.

The dark stone countertop is juxtaposed with the wooden dining table surface, and the design of different heights provides the space with more possibilities.

The ultra-quiet smart lift hood is concealed within the cabinet countertop, seamlessly integrating with the surface, creating different spaces for work, cooking, dining, and entertainment.

Shutter/ Drawer Front: Whiskey Cedarwood

Shutter/ Drawer Front: Snow White

A freestanding wine cabinet combining wood grain veneer and metal aluminum frame glass, integrating an intelligent temperature-controlled wine cabinet system, creating intoxicating moments with stories.

Using pure natural materials and technological advancements, the original flaws of the natural wood veneer are accurately corrected, conveying visual beauty while preserving the "natural breathing sensation" of the space.

Avignon Pro

French Retro Style

The exquisite and refined French retro style draws inspiration from the Chanel brand's exquisite sense and elegant French arch shape with delicate black and white linear accents. It combines a petty bourgeois style, exquisite beauty, and pressure-relief design to create dynamic, innovative spatial utilization.

Guided by the "small space, expansive visual" design philosophy, it reimagines refined living through a lifestyle of meticulous aesthetics, crafting exquisite living spaces that blend elegance with comfort.

Extracting elements of French architecture, the design showcases the elegance and fluidity of lines, blending sturdy rectangular forms with graceful arched shapes to exude a refined aesthetic.

The open-concept showcase kitchen cultivates a lifestyle of light dining and immersive coffee enjoyment.
